HUNTSMAN TO PROMOTE WATER AND FOOD CONTACT ELASTOMERS EXPERTISE AT K 2019

Visit Huntsman at K 2019 at Booth 22 in Hall 8a

K 2019 - from 16 to 23 October 2019 - Düsseldorf Messe, Düsseldorf, Germany

Delivering Elastomers Innovation: Premium PU & TPU: Passionate people. Powerful possibilities

Osnabrück, GERMANY: Plastics manufacturers looking for specialist elastomers that are approved for use in water and food contact applications, should head to Huntsman's stand at K this October - where the business will be promoting a range of materials.

Huntsman is a leading global producer of TPU elastomers. A pioneer in the plastics sector in the implementation of good manufacturing practice (GMP) procedures at its production plants, Huntsman is trusted as an international GMP partner, and its elastomers experts are renowned for helping customers make the right material choices in highly complex, regulatory fields.

Huntsman has a continuously evolving portfolio of IROGRAN® TPU food contact materials (FCM) that comply with FDA and EU plastics regulations, as well as migration and smell tests from the potable water industry. Easily processed via extrusion, injection and calendaring techniques, materials include polyester-based elastomers for standard food and drink applications; and specialty polyether-based elastomers for enhanced water and microbial resistance. Key products include:

- Ester-based **IROGRAN® A 85 E 4993 FCM** TPU and ether-based **IROGRAN® A 90 P 5055 FCM** TPU - both of which can be calendared to create abrasion resistant conveyor belts that are also tolerant to harsh cleaning agents
- **IROGRAN® A 85 P 4394 FCM** TPU - a flagship ether-based material, which can be processed via flat-die or blown-film extrusion, for film and sheet applications in the food sector
- **IROGRAN® A 85 P 4395 FCM DP** TPU - a new, low-migration, ether-based elastomer for making hoses and tubes, which are resistant to microbes and chemicals, and less prone to kinking - so therefore ideal for dispensing solids and liquids.

For more information, visit the team at K 2019 at Booth 22 in Hall 8a from 16 to 23 October 2019 or email:
